To Our Valued Customers:

Recently, there have been many articles written about problems with Chinese-made drywall sold in the US during the time-span of 2005-2006. We at Home Acres Building Supply (including V-Line Corp and Fishers Building Supply) want to take this time to assure everyone that we have never purchased nor sold any drywall made in China at any time.

At Home Acres Building Supply our goal is to be your best vendor by providing top quality materials to your worksite, safely, at a competitive price, and on time. We aspire to be *First in Service \* Best in Value*.

Thanks for your support,

The Team at Home Acres
